

RHINO H1 5G

A 5G RedCap portable hotspot made for enterprise.

- Global 5G and 4G LTE coverage.
- eSIM and physical SIM card support.
- Large removable battery for all day usage.
- Support for 5G and 4G LTE private and standalone networks.
- Mobile Device Management (MDM) support including Mambo® EMM.

The RHINO H1 5G RedCap is a high-performance mobile hotspot engineered for enterprise-level performance, offering TAA compliance and robust 5G and 4G LTE connectivity. Designed to keep you connected in the most demanding environments, it delivers ultra-fast, reliable internet speeds. With built-in eSIM technology, it ensures flexible network management, making activation and connectivity seamless across multiple carriers. Featuring integrated Mobile Device Management (MDM) support, the RHINO H1 streamlines device management and policy enforcement. Backed by a guaranteed 3 year product availability, the RHINO H1 offers long-term stability and reliability for your enterprise's connectivity needs.

Use Cases
